234HA53P	S	WATER METERING	8203-13003	1 ²¹ / ₃₂	15 ³ / ₈	17 ³ / ₈

* Bushings are NOT included.

CARE CHEMICAL TIP:

Here is a safe and easy way to remove calcium carbonate glaze from your rollers:

Wash all ink from the rollers with **X75-122** followed with **X75-123**. Disengage the clean-up attachment and pour **X75-111** deglazer over the rollers. Let the press run for five to ten minutes, adding more of the **X75-111** as needed. Engage the clean-up attachment to remove all of the **X75-111**.

Remember: the amount of **X75-111** needed will depend on the amount of alkaline build-up. The alkaline will neutralize the **X75-111** as the calcium carbonate is dissolved.
