12055-S	R	WATER FOUNTAIN (smooth)	—	1 ³ / ₈	10 ³ / ₈	11

A **smooth** aluminum fountain roll will give better water control and will be easier to clean. If your smooth roll picks up ink, clean it with plate cleaner or straight etch. Wipe it dry, apply plate gum, and wipe it dry again. Since the fountain solution dissolves the thin film of gum, the fountain roll is now ready to use.

Never use any solvent to clean a 3M sleeve. If cleaning is necessary—though it's better to use a new sleeve—use only plain water or fountain solution.

See page 53 for paper feeder and blanket cleaner rolls.
See page 72 for Townsend T-51 color head rolls.
